31 MAR 2023

It gives me immense pleasure to know that Atal Medical and Research University, Mandi has its own website to provide convenient access to informal.

Information Technology has become a popular way of communication for everyone and the State Government is committed to promoting this technology to ensure transparency and responsiveness in governance.

The State Government is making efforts to provide the best health care services to the people of the State nearer to their homes. For this purpose infrastructural facilities and latest equipments are being provided in the health institutions.

I hope that the website prove to be an excellent resource for medical professionals and people alike, providing valuable information regarding affiliation, education and research in the Modern System of Medicines and Indian System of Medicines.

With Best Wishes.
